Featured Products

While our product lines can be configured in an unlimited number of ways, we do have several model types that we manufacture often.

Here you see four of our most common model types[1]:

1. IT6R-SB-VZ

2. IT6R-SB-VZ-HT

3. IT6R-SB-VZ-ET2

4. IT6R-SB-VZ-H1

For added functionality, they can be made using the TRK board.

1. Standard Tracker
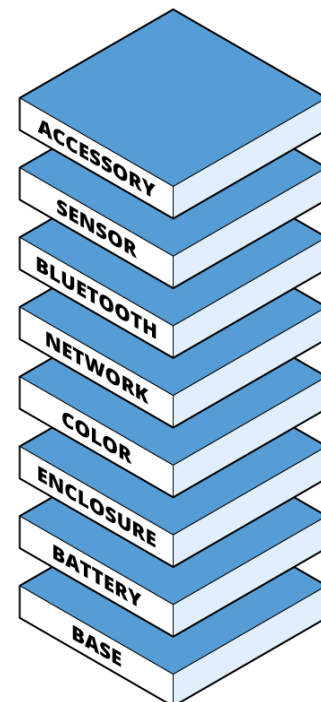

2. Humidity & Temp

3. Temp Probe

4. Power Harness

Customization

Our engineers and product specialists will guide you in configuring the correct asset tracking and monitoring solution. Because we manufacture the entire system in-house, we can customize any aspect of your solution. After a clear understanding of your application, we will provide you a variety of options to customize your asset trackers.

Best Price Guarantee

You will receive unlimited text and email notifications, unlimited pings, unlimited data, and unlimited support. We have no hidden fees or overage charges. When you are looking for quality and value, our products and service can't be beaten!

Equipment Customization

Our manufacturing and research facility is ISO 9001 compliant. This allows our complete control of product development which enables our highly skilled team to create a perfect product solution for your needs. Our team can customize the Tracker and you determine which features are best suited for optimizing your business, and we'll do the rest. Integration with existing back-office applications and databases (Oracle, IBM, and SAP) is one of the many things we are highly proficient in. Our system dramatically reduces development costs, risk, and time.

Industry-Leading Battery Life

Our extended battery life is critical for long-term monitoring. When set for four pings per day, the Tracker will last over 6 months on a single charge. Only takes 6 hours to fully charge your Tracker.

In-House Manufacturing

We develop and manufacture our entire Tracking system here in South Florida. We can customize anything from the color and shape of the Tracker to private labeling the entire system.
